Our Standard Operating Procedure of processing your meat is after visually inspecting either process or freeze until we have time to process.

All deer for sausage products is inspected by plant personnel and after passing is commingled with other deer.

If we find deer that is excessively bloody, dirty or hairy. It is either discarded or returned to it's owner.

Dayton Meat Products offers custom service to process your deer into ground, jerky and sausages. We are not responsible for the condition of trim or carcasses brought into our plant. All products are produced wholesome under our food safety plan.
