2018 Deer Processing

Our procedure for processing your meat is after visually inspecting is to process or freeze until we have time to produce products. Pulled Jerky and Dried is kept separate. All deer for ground products is inspected by plant personnel and is co-mingled with other deer. Meat that is excessively bloody, dirty, hairy or fatty and does not pass inspection is discarded or returned to its owner.

Dayton Meat Products offers custom service to process your deer into ground, jerky and smoked meats. Dayton Meat Products is not responsible for the condition of trim or carcasses brought into our plant. All products produced wholesome under our food safety plan.
